### About me

I am Filip and I've been responsible for my own company related to financial services since 2011. 2 years ago I've learned about programming and got fascinated by its possibilities of processes automatization. In 2019 I joined Bootcamp organized by Codemy S.A. where I learned Java and technologies such as Spring, Hibernate, Git and Jira.

By leading my own company I advanced in:

- team cooperation and social skills, because of the people I work with;
- fast learning due to high speed of changes in accounting rules and implementing new technologies;
  - self discipline;
  - analytical thinking;
  - issue resolving;
  - high stress resistance.

Being well organized and having the opportunity to work from home, activities related to the company I led take only 8hours weekly. Therefor I am ready to focus on programming, that became my passion.

## **Education:**

2019 - 2020 **Codemy S.A** 

Bootcamp Java Developer

2014 - 2016 Financial accounting

Master's degree

2011 – 2014 Accounting and Controlling

Bachelor's degree

## **Experience:**

Since 2011 F.P.-U.-H. Filip Skiba

Accounting and finance related services
